

## Hole Pro® and Blue Boar® Hole Cutters

Our hole cutting tools are engineered specifically for the building trades person to save them time on the job and to insure the job gets completed on schedule without delays caused by tool failure. The chart below summarizes the materials and hole cutter size ranges available, and typical tasks for which they are ideally suited.

Trades	Materials Cut	Available Sizes	Tools	Tasks/Project
HVAC Electrical Plumbing Refrigeration Insulation Central Vacuum Carpentry MRO	Wood, plywood, OSB, MDF, chipboard, Hardie cement board, Durock, fiberglass, clay roof tile, brick veneer, wall tile, marble	5/8" to 6-1/4" 2-1/4" max cut depth 2-5/8, 3-5/8, 4-5/8" sizes for ABS / EMT Use 5/8"-18 arbor or Hole Pro XL-Arbor with Hole Pro Shields	Blue Boar TCT Universal hole cutters  Blue Boar Self-Feed TCT tungsten carbide tipped hole cutters	Service feeds, vent and flue pipes, service pipe, electrical circuit runs, central vacuum
HVAC Electrical Plumbing Refrigeration Insulation Radon Removal	Stucco, plaster, brick siding, fiber cement board, and plywood sheathing	1" to 6-1/4" diameter 2-5/8", 3-5/8", 4-5/8" sizes for ABS, PVC, EMT pipe 2" max cut depth 7/16" 3-flat shank	Blue Boar TCT tungsten carbide tipped Stucco-Brick & OSB hole cutters	Service feeds for plumbing, HVAC electrical, soffit vents, ABS/PVC holes for HVAC and split AC systems, heat pumps, tankless water heater vent Radon removal
HVAC Electrical Plumbing Refrigeration Radon Removal	Concrete cinder block and brick	1" to 6" diameter and 2-5/8", 3-5/8" sizes for ABS, PVC, and EMT pipe 10" cutting depth 5/8"-11 threading	Blue Boar Dry Cutting Diamond Core bit with Laser Welded cutting segments for use on core drills and even high RPM 7" right angle grinders	Service feeds for plumbing, HVAC electrical, dryer vents, tankless water heater vents, Radon remediation, etc.
HVAC Electrical Audio CCTV/security Refrigeration Plumbing Radon Removal Carpentry Woodworking MRO	Sheetrock, plaster, hard and soft woods, Hardie cement board, plywood, OSB, MDF, chipboard, Durock, fiberglass, acrylic sheet & plastics, veneers, Formica	1-7/8" to 17" holes Infinite adjustment 1-1/8" max cut depth Tungsten blades for sheetrock/plaster, etc HSS blades for T&G plywood, plastics	Hole Pro Adjustable Hole Cutter Kits X-148 1-7/8" to 5-7/8" X-230 1-7/8" to 9" X-305 1-7/8" to 12" X-425 1-7/8" to 17"	Recessed light cans, in-ceiling audio speakers, HVAC duct/vents CCTV, CO2 monitors, Radon remediation, tankless water heater vents, exhaust fans, etc
Roofing/skylights	Sheetrock, Plaster, acoustic tile, wood, acrylic sheet and plastics, MDF, plywood, chipboard, veneers	1-7/8" up to 17" for cutouts for 10" to 16" diameter skylights in sheetrock & plaster Faster, cleaner, less risk of cracking plaster	Hole Pro Adjustable Hole Cutter Kits X-305 1-7/8" to 12" X-425 1-7/8" to 17"	Tubular skylights
